

AI-ENABLED BUSINESS INTELLIGENCE

Week 5 — BI Strategy & Business Applications

1. Overview of the Week

This week you zoom out from charts and queries to think strategically about how BI works inside real companies. You will study 2 real BI case studies from Indian companies (Swiggy, Zomato, Flipkart, or similar), map a BI maturity model for a chosen business, and write a BI Strategy Note recommending KPIs, data sources, and a tool stack for your capstone topic.

This week also includes the mandatory Month-1 Reflection Video.

2. What You Will Do This Week

- **Study 2 Real BI Case Studies:**
 - Pick from: Swiggy data team, Zomato analytics, Flipkart BI, Meesho analytics, Myntra analytics, Razorpay fraud analytics, or any Indian company with published BI/data work.
 - Sources to find case studies: company engineering blogs (Medium, Dev.to), YourStory, Analytics India Magazine, Analytics Vidhya, Towards Data Science.
 - For each case study, document: company name, the business problem they were solving, KPIs they tracked, data sources they used, tool stack (e.g., Python + Redshift + Tableau), and the business decision or change that the data informed.
- **Build a BI Maturity Model** for a chosen company or sector (yours, or a hypothetical startup in your domain). Use these 4 dimensions:
 - **Data Availability:** What data does the org already have? What's missing?
 - **Tooling:** What tools are in place? (Excel only / BI dashboards / Advanced analytics / ML)
 - **Team:** Who analyses the data? (None / Part-time analyst / Dedicated team / Centre of excellence)
 - **Use of Insights:** How are insights actioned? (Not used / Used occasionally / Embedded in decisions / Driving strategy)
 - Place the company on a 4-stage maturity ladder: **Emerging** → **Developing** → **Established** → **Leading**, with justification.
- **Draft BI Strategy Note (400 words):** for your capstone topic, recommend:
 - 5–7 KPIs that should be tracked (with definitions)
 - Data sources to capture them
 - A recommended tool stack (free-tier options acceptable)
 - A phased implementation plan (what to do first, second, third)

AI-ENABLED BUSINESS INTELLIGENCE

- **Record Month-1 Reflection Video (5–7 minutes):** cover 3 specific things you learned in Weeks 1–4 (with a screenshot or chart shown on screen where possible), one analytical challenge you faced and how you solved it, and your goals for Weeks 5–9. Upload to YouTube as Unlisted.

3. Learning Outcomes for the Week

Week Outcome	Mapped to CLO
Analyse real BI case studies to extract KPI, tooling, and decision patterns	CLO-8
Map a BI maturity model across data, tooling, team, and insight-use dimensions	CLO-8
Write a BI Strategy Note with recommended KPIs, data sources, and tool stack	CLO-7, CLO-8
Complete mid-program reflection on analytical and strategic growth	CLO-8

5. Deliverables

Deliverable 1: BI Strategy Note (400 words)

- PDF document.
- Structure:
 - **Section 1 — Context** (50 words): restate the capstone topic and decision-maker.
 - **Section 2 — KPIs Recommended** (120 words): 5–7 KPIs listed with a 1-line definition each.
 - **Section 3 — Data Sources** (80 words): where each KPI's data comes from.
 - **Section 4 — Tool Stack Recommended** (80 words): free-tier tools across data collection, storage, analysis, visualisation, AI.
 - **Section 5 — Phased Implementation Plan** (70 words): what to set up first, second, third.
- Total: 400 words (± 25 words).
- File name: W5_BIStrategyNote_[InternID].pdf

Deliverable 2: BI Case Studies Summary (as part of the same PDF or separate)

- 2 case studies documented.
- Per case study: company name, business problem, KPIs tracked, data sources, tool stack, business decision/outcome, source URL.
- 150 words per case study.
- Can be appended as Section 6 to the Strategy Note PDF.

Deliverable 3: BI Maturity Model Mapping

- 1 page (can be same PDF).
- A small table or quadrant showing the 4 dimensions (Data Availability, Tooling, Team, Use of Insights) $\times$ 4 maturity stages (Emerging, Developing, Established, Leading).
- Place your chosen company / sector on the map with 60–80 words of justification.

Deliverable 4: Month-1 Reflection Video

- Duration: 5–7 minutes.
- Content: 3 specific learnings from Weeks 1–4 (with a chart or screen-share where possible), one challenge and how you solved it, goals for Weeks 5–9.
- Upload as **YouTube Unlisted** (not Public, not Private).

AI-ENABLED BUSINESS INTELLIGENCE

- Submit the link in the **Reflection Video Link** in the **Week 5 Submission Form** by **Sunday 11:59 PM IST of Week 5**.

6. Submission Instruction

- All submissions must be completed through the designated Google Form shared for Week 5 deliverables. **Submissions through any other medium will not be considered.**
- In case of multiple files, it is mandatory to **compress all files into a single .zip folder** before uploading. Only one consolidated file should be submitted in the file upload section of the form.
- If an intern is unable to meet the submission deadline due to a genuine emergency, a formal email must be sent to **internbti@geu.ac.in** by Sunday of the same week. Requests without valid justification or **submissions after the deadline** will not be considered.
